Professional Summary

Computer Science Engineering student with hands-on experience in web development, AI-assisted workflows, and automation systems. Developed real-world projects focused on productivity, lead management, and user experience. Strong problem-solving abilities with an interest in building practical software solutions.

Skills

Front-End Development	Workflow Automation	AI-Assisted Development
Version Control (Git/GitHub)	No-Code Development	UI Design
Web Application Development	API Integration	Automation Workflows

Professional Experience

Saakra Agency — Freelance Developer May 2025 – Jan 2026

- Designed and deployed responsive websites and application prototypes.
- Used AI-assisted tools to improve development speed and workflow efficiency.
- Improved UI clarity and usability based on client requirements.

FintechGie — Web Developer Intern Feb 2025 – Jul 2025

- Assisted in frontend and backend development of web applications.
- Integrated APIs and supported performance and UI improvements.
- Collaborated with team members using Git and GitHub.

Projects

WorkGuard AI — Employee Monitoring System

[GitHub Repository](#)

- Developed a web-based system to monitor employee screen time and activity.
- Analyzed task-switching behavior to identify productivity patterns.
- Created backend APIs to store and manage activity data.

AI-Powered Lead Generation & Qualification Workflow

[GitHub Repository](#)

- Built an automated system to capture and qualify leads using AI workflows.
- Integrated email notifications and structured data storage.

Education

Bachelor of Computer Science and Engineering 2022 – 2026

Sri Shanmugha College of Engineering and Technology, Salem
CGPA: 7.82

Higher Secondary Education 2020 – 2022

Paramveer Matric Higher Secondary School, Dharmapuri
Percentage: 72%

Certifications

- IBM SkillsBuild — Artificial Intelligence Fundamentals
